OC6 Crossing Area

Sign 5

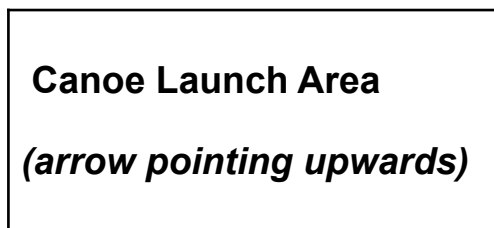

Sign 6

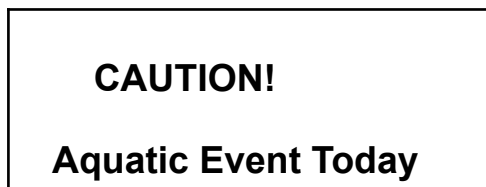

Sign 7

Sign 8

Sign 9

Sign 10

OC1/2/V1 Launch Areas

Tents/Equipment

(arrow pointing left)

• There were no major issues in either areas • Only need 2 attendants actually directing parking in the Chaplin Park site • Need at least 5 reserved parks – 3 x NOCC 2 x disabled parking • Given the unknown amount of trailer unloading space at the Tewantin Marina we could do with more (tall strong) attendants assisting clubs unloading boats to avoid delays and hold ups in the boat ramp area, • arrive at the boat ramp earlier to put a hold on some parking spaces • Knowing the amount of trailers and times they were arriving was vital to smooth operation • Have a documented - Plan B communication process in place for attending clubs should weather conditions change • When clubs register find out if they are bringing a trailer, ask for arrival day/time
